DISABILITY INFORMATION SYSTEM REPORT MARCH 31, 1990

F O R E W O R D

This report of the Disability Information System (DIS) provides an overview of the DIS's operations and includes a cumulative statistical summary of cases registered to March 31, 1990. The DIS does not claim complete accuracy. A case follow-up system is ongoing so that the degree of accuracy can be improved.

The objective of this report is to indicate the different types of demographic data available through the Registry and to provide the necessary data for improvement of service to disabled persons in Newfoundland and Labrador.

Consulting services were provided by Mr. R. Parsons, Supervisor of Information, Statistics and Publication, Department of Education and Mr. Ron Day, Director of Research & Planning, Department of Social Services.

This report was prepared by Ms. C. Ryan with the assistance of Ms. Lida Morgan.

The Division gratefully acknowledges the advice of the consultants and the cooperation of government departments and registering agencies.

Comments or queries regarding the report's content and requests for additional statistics or information may be directed to:

REVIEW OF DISABILITY INFORMATION SYSTEM ORGANIZATION AND OPERATION

Introduction

In 1972, the Ministers of Education for New Brunswick, Newfoundland, Nova Scotia and Prince Edward Island, appointed a committee to study the needs of those children in the Atlantic Provinces who required special education.

One of the committee's recommendations was that a Provincial Registry of Disabled Persons (Disability Information System, DIS) be established through the cooperative efforts of the Departments of Health, Education and Social Services.

Administration

In 1974, a DIS was established for the Province of Newfoundland and Labrador. The DIS is a joint responsibility of three government departments: Education, Social Services and Health. The Department of Education, Division of Special Education Services was responsible for its operation and administration from 1974 to March 1984. On April 1, 1984 the DIS was transferred to the Department of Health.

The DIS is advised by a Provincial Advisory Committee consisting of representatives from the Department of Education, Health, Social Services and other agencies; Children's

Rehabilitation Centre, C.N.I.B., Community Medicine, Memorial University, Dr. Charles A. Janeway Child Health Centre, Workers' Compensation, Consumer Organization of Disabled People (COD).

Objectives

Disability Information System's objectives:

To ascertain, record and classify persons with disabling conditions in the Province of Newfoundland and Labrador, so as to provide a reliable basis for estimating the prevalence and distribution of specific conditions within the population.

To assist government departments and agencies to plan and program appropriate services for disabled persons in the Province.

To encourage earlier detection of disabled persons so that services can be initiated as early as possible.

To undertake statistical analyses of the data.

To support research.

Identification Criteria

Any person from birth to 21 years of age inclusive with any disabling or handicapping conditions which:-

interferes with education (whether the person goes to a special school or whether he/she does not go to school at all, or whether he/she has to have special attention in a regular school);

requires continuous medical supervision;

interferes or will interfere with competitive or sheltered employment;

may be considered disabled to the extent that the person will require future services

Persons with emotional or mental illness are not currently registered.

In 1978, a survey of all mentally retarded adults in the province was implemented (excluding those in nursing homes or institutions). Field Social Workers collected the necessary data for the registration of this target group. Approximately 1,000 handicapped adults were identified through this process.

In 1986 the mandate to include persons of all ages with all disabilities was approved and plans are being formed regarding its implementation.

Identification

Identification is voluntary. When the DIS is notified of a person with a possible disability, the name and detailed files are checked so that duplication is avoided. If the person has not been identified previously, a tentative notification form is sent to the identifying agency requesting the collection of further information and, if where applicable, guardian or client consent is requested for identification and/or release of data.

Identifying Agencies

Agencies currently assisting in the identification of persons with the Disability Information System are:-

Department of Health -
Public Health Nurses (birth to 21 years)

Department of Social Services -
Social Workers (mentally retarded adults and children under their care)

Department of Education -
Special Schools

Children's Rehabilitation Centre

C.N.I.B.

Dr. Charles A. Janeway Child Health Centre -
Cystic Fibrosis Nurse Co-ordinator
Hemophiliac Nurse Co-ordinator

Voluntary Agencies

Confidentiality

Preservation of record confidentiality and the guarantee that individual's rights to privacy will be protected are of constant concern to government.

The established policy is that information on individual cases is not disclosed to anyone other than those authorized by government. Persons in the private sector wishing to contact an individual are referred to the identifying agency.

Aggregated data is available on request to anyone.

Ascertainment

Multiple data sources which compensate for the potential deficiency of voluntary reporting are used by the DIS with the cooperation of the following departments, agencies and persons:-

Department of Education -
Special Schools
Special Services Division

School Boards -
Special Education Consultants
Special Education Teachers

Department of Social Services -
Child Welfare Division
Rehabilitation Division

Department of Health -
Division of Research & Statistics
Provincial Health Districts - Public Health Nurses
Hospitals (Newborn Nurseries)

Dr. Charles A. Janeway Child Health Centre (Admissions & Discharge Forms)

Physicians

Children's Rehabilitation Centre
Voluntary Agencies -
C.N.I.B., etc.

DIS Use

The DIS is used for the following purposes:-

To provide a central index for disabled persons in Newfoundland and Labrador.

To identify disabled persons for surveys of special groups, regionally and provincially by Departments of Education, Health and Social Services.

To provide statistical information for planning services in specific areas.

To aid prompt discovery of cases with a view to their early treatment and rehabilitation.

To provide statistics for projects and research.

To provide information on the services which are available to disabled persons.

Definitions

For the purpose of this report the WHO definitions will be used:-

Impairment - is any loss or abnormality of psychological, physiological, or anatomical structure or function.

Disability - is any restriction or lack (resulting from an impairment) of ability to perform an activity in the manner or within the range considered normal for a human being.

Handicap - is a disadvantage for a given individual, resulting from an impairment or a disability, that limits or prevents the fulfilment of a role that is normal (depending on age, sex, and social and culture factors) for that individual.
